DUTTON'S CUTS =

- X \$5.8 BILLION GONE
- X 30,000 STUDENTS LOCKED OUT

International education is a cornerstone of Australia's educational ecosystem, cultural exchange, and global standing. Peter Dutton and the Coalition have adopted xenophobic rhetoric that threatens this vital sector. Dutton's plans to cut international student numbers by 30,000 in the first year would **severely impact public universities and the broader economy, slashing \$5.8 billion and threatening thousands of jobs, especially in research.**
